

Livable Duxbury

Improving Quality of Life for All Residents

The Livable Duxbury Task Force is an action-oriented group dedicated to **enhancing the quality of life in Duxbury for residents of all ages—today and in the future.** With a team of over 70 volunteers, we are working to make Duxbury a better place to live, work, and grow through targeted initiatives addressing eight key domains.

Our Focus Areas

We prioritize eight domains identified through community feedback and guided by the AARP framework:

- **Outdoor Space & Buildings**
- **Transportation**
- **Housing**
- **Social Participation**
- **Respect & Social Inclusion**
- **Work & Civic Engagement**
- **Communication & Information**
- **Community & Health Services**

Our initiatives span across these domains to meet the expressed needs and priorities of Duxbury residents.

Why It Matters

Our mission is informed by the voices of the Duxbury community. We focus on:

- **What we've done:** Enhancements we've made to improve quality of life.
 - **What we're doing:** Ongoing projects responding to community needs.
 - **What we plan to do:** Future initiatives driven by your feedback.
 - **Access:** Ensuring residents can find and use vital services and resources.
-

A Community-Driven Vision

We work with diverse stakeholders, including residents, the Select Board, caregivers, families, and individuals with mental health challenges. Together, we're creating a more inclusive, supportive, and vibrant Duxbury.

Collaboration for Community Impact

While our work builds on the strong foundation established by the Duxbury Council on Aging, we recognize that improving conditions for seniors benefits the entire community. The Task Force actively partners with:

- Mental and physical health organizations
- The Zoning Board & Planning Board
- Open Space Committee
- Local foundations & donors
- Interfaith Council
- Duxbury Affordable Housing
- Town Departments, Schools and Committees

Get Involved

The Livable Duxbury Task Force is always looking for passionate community members and partners to help implement positive change.
